These data provide the output of a model that explores the variable impact of the recession on current retail business rates. Regionally adjusted values are presented at the local authority scale for England; alongside retail centre adjusted values for a series of case study locations. These data were generated for a report produced in collaboration with the Local Data Company. Ancillary data used within the model were supplied by the Valuation Office Agency and Colliers International Ltd.

- Contents
 - readme.txt: Information
 - metadata.xml: Metadata
 - tables: Folder containing the csv files
 - shapefiles: Folder containing the shapefiles
 - variables.txt: Data dictionary
- Citation and Copyright The following attribution statements must be used to acknowledge copyright and source in use of these datasets: Retail Data Supplied by the Local Data Company, Colliers International Ltd and the Valuation Office Agency; Contains Ordnance Survey data © Crown copyright and database right 2015; Data analysis by the ESRC Consumer Data Research Centre.
- Funding Funded by: Economic and Social Research Council ES/L011840/1; ES/L003546/1
- Other Information Full details about how these data were created and description of the patterns shown can be found in the accompanying report.
