This combines the QS701 datasets from England/Wales, Scotland and Northern Ireland, from the ONS, NRS and NISRA National Statistics agencies respectively for the 2011 Census, and aggregates some of the methods together. The modal and second-to-modal method is extracted, with the corresponding percentages of the aged 16-74 working population. Note that the data here is based on the residential (home) location of the commuter.

Data and Resources

QS701 Method of Travel to Work by Home Location ... (/dataset/method-of-travel-to-work/resource/76bfd034-6722-447c-b6de-09a7126477ba)

The method of travel to work, for all output areas across the UK. We have...
